BUILT TO BOOK

WEBSITES BUILT TO WIN THE NEXT JOB

VISUAL IDENTITY SYSTEM

A practical, contractor-first brand built around credibility, clear action, and the next booked job.

VERSION 1.0 - SEPTEMBER 2026

01

Brand Foundation

The strategy behind the identity.

BRAND PROMISE

Websites built to win the next job.

CAPABLE

Knows the trades, respects the work, and communicates with confidence.

DIRECT

Clear offers, plain language, obvious calls to action, and no agency fog.

DEPENDABLE

Fast follow-through, grounded claims, and a process contractors can trust.

WHO IT IS FOR

Established local contractors and home-service businesses whose work is stronger than their current website. They want more qualified inquiries, not more marketing jargon.

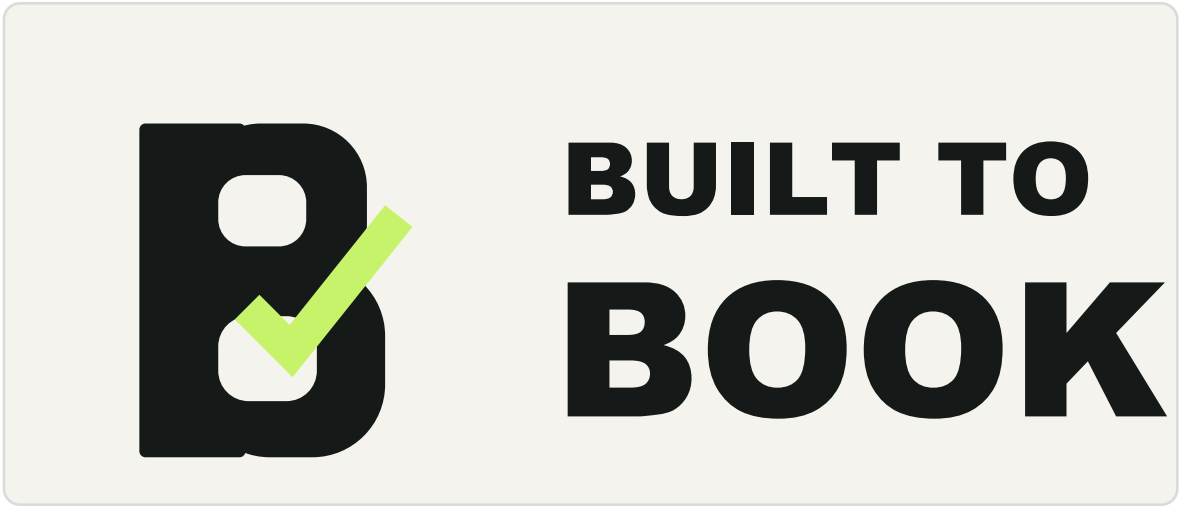

VOICE

Use: specific, useful, candid, confident, local.
Avoid: disruptive, cutting-edge, leverage, funnel hacking, AI-powered.

02

Logo System

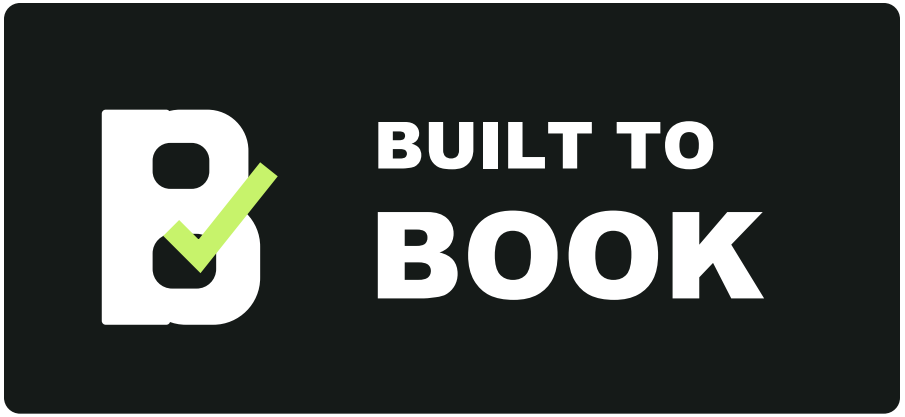

A block-built B plus a booking checkmark.

PRIMARY LOCKUP - LIGHT BACKGROUNDS

SOCIAL MARK - DARK FIELD

USAGE RULES

Clear space: at least the width of the check stroke. Minimum digital width: 150 px for the full lockup and 24 px for the mark. Do not stretch, rotate, recolor individual pieces, add shadows, or place the logo on busy photography.

Color System

Worksite utility with one unmistakable conversion signal.

JOBSITE INK

#151A18

Primary type and dark fields

BLUEPRINT BLUE

#2E6171

Trust, information, structure

SIGNAL GREEN

#C7F36B

Primary CTA and booked state

SAFETY ORANGE

#F26B38

Urgency and small alerts

CONCRETE WHITE

#F4F3ED

Primary canvas and breathing room

RECOMMENDED BALANCE

Concrete/white 46% | Ink 26% | Blue 15% | Green 10% | Orange 3%

BEST CONTRAST

Ink on Concrete, White on Ink, Ink on Signal Green.

KEEP ORANGE RARE

Reserve it for warnings, urgency, or one small visual beat.

Typography and Interface

Big promises, compact proof, and obvious action.

DISPLAY - ARIAL BLACK

WIN THE NEXT JOB.

BODY - ARIAL

Use short sentences, concrete outcomes, and proof from the contractor's real work. Let headings carry the confidence and body copy do the explaining.

TYPE SCALE

H1	44-64 px	Arial Black
H2	30-40 px	Arial Black
H3	20-24 px	Arial Bold
Body	16-18 px	Arial
Utility	12-14 px	Arial Bold

INTERFACE RULE

Square, stable controls with an 8 px maximum radius. Use Signal Green for the primary action and Blueprint Blue for informative states.

Graphic Language

Built from blocks, checks, grids, and real work.

BLOCKS

Use sturdy rectangles and short rules to suggest plans, materials, and reliable systems.

CHECKS

Use the check only for action, completion, proof, and booked outcomes.

GRIDS

Blueprint grids can structure dark fields. Keep them subtle and functional.

CORNERS

Use restrained 4-8 px radii. Avoid soft bubbles and decorative capsules.

PHOTOGRAPHY DIRECTION

Show the actual work: finished projects, crews in context, tools in use, marked vehicles, and recognizable local environments. Favor wide, well-lit images with room for copy. Avoid staged handshakes, generic skylines, hard-hat portraits against white, and dark stock overlays.

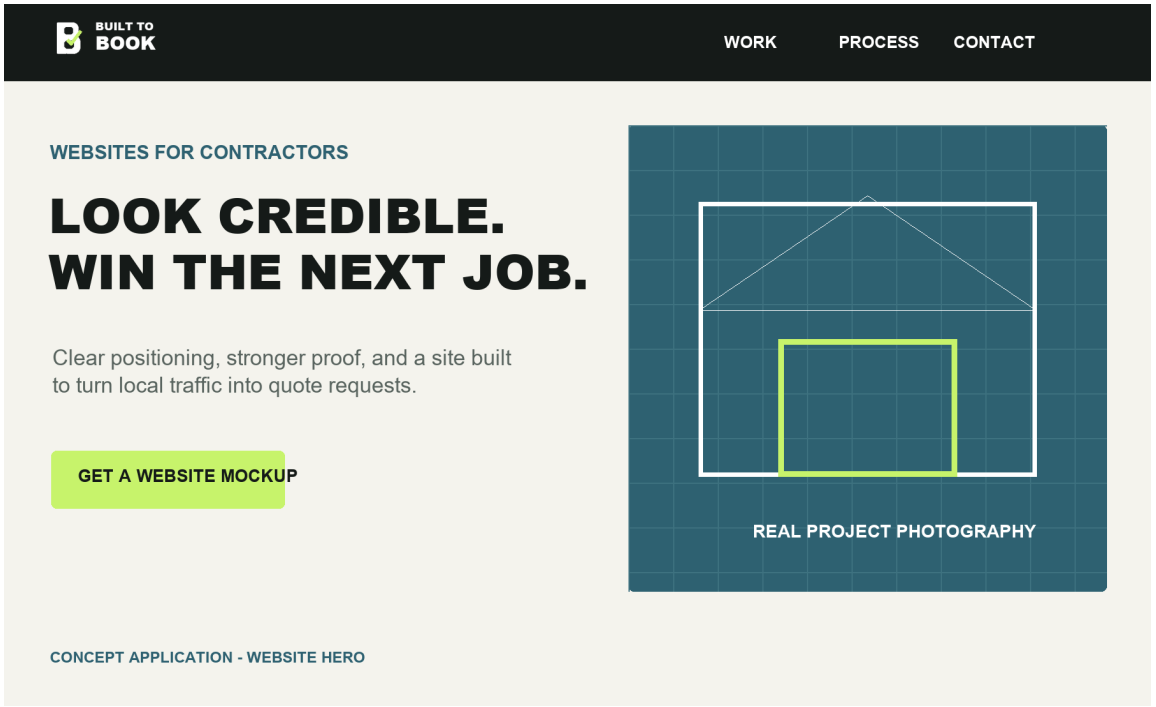

REAL WORK

CLEAR PROOF

LOCAL CONTEXT

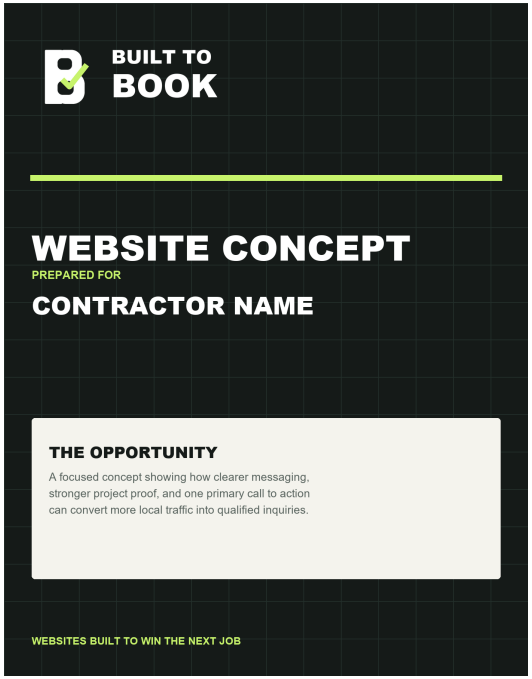

Applications

How the system behaves in the real sales motion.

WEBSITE HERO

Lead with the result, use a real-project image, and give the page one dominant next step.

CONCEPT COVER

Make each prospect feel specifically researched before they open the mockup.

SOCIAL AVATAR Use the mark only. Keep the dark square field.

Quick Start

The minimum needed to launch consistently.

1

Use the primary lockup

Place it on Concrete or white. Use the reversed lockup on dark fields.

2

Lead with the promise

Websites built to win the next job.

3

Make green mean action

Reserve Signal Green for primary CTAs and booked outcomes.

4

Use real proof

Projects, reviews, credentials, service areas, and specific results.

5

Write like a contractor talks

Short, direct, useful, and free of marketing theater.

CREATIVE DIRECTION ONLY - COMPLETE TRADEMARK AND DOMAIN CLEARANCE BEFORE LAUNCH.
